

Colorado Cricket League – Ranking System

RANKING AND STANDINGS:

- A team with highest number of wins shall get the highest ranking. Team with second highest number of wins shall get the second highest ranking, and so on till the last rank.
- In case of a Tie-Breaker (the same rules will be used for both Premier 40 and Twenty 20):
Tie-Breaker Rules come into play if at the end of the league stage, the teams are tied on the number of regular season wins OR tied on points gained.
 - *Tie-Breaker 1:* A team with the best Net Run Rate (NRR) overall (taking into account all regular season games in that year *against all participants*, in which a result was obtained) shall get the highest ranking within this subset, team with second highest NRR shall get the second highest ranking, and so on.
 - *Tie-Breaker 2:* In case of a further tie, the team with the best NRR against the teams within this subset shall get the highest ranking; team with second highest NRR shall get the second highest ranking, and so on.
 - *Tie-Breaker 3:* If a tie exists even after the preceding tie-breakers, all teams tied at this stage shall get a joint ranking with the highest possible ranking awarded to each team within this subset. Included in the jointly awarded ranking. *If three teams tied for the third place, each will get 3rd ranking. The team that is next to the three will get 6th ranking.* Next ranking awarded to the team will allow for serialized ranking for each team.

- Concerns or disputes regarding replay matches must be reported to the EC as soon as possible. The EC is responsible for answering these concerns and resolving any such disputes.
- EC may choose to declare a game as a forfeit or a tie. In which case it will be added to the overall result and appropriate ranking rule(s) shall apply.

 - Exact time-frame to finish replay games
 - Refusal by one team to replay a match.
 - Mutual agreement to not play a previously abandoned/washed out match. In case of a mutual agreement to not replay an abandoned/washed out match, a reason for abandonment *must* be provided to the EC.
- If ground availability and weather becomes an issue then games for positions 1 to 4 will be given preference over games for positions 5 to 8 OR 9 and 10
